Escribe los números que faltan.

A large rectangular frame contains a math puzzle. At the top left, a dog's head is peeking over the top edge. At the top right, a dog is standing. At the bottom left, two dogs are sitting. The puzzle consists of a tree of addition problems. The root node is a circle containing the number 10. It branches into two circles: the left one contains the number 3, and the right one is empty. The circle with 3 branches into two circles: the left one contains 2, and the right one is empty. The circle with 2 branches into two circles: the left one is empty, and the right one contains 1. The empty circle on the right of the root branches into two circles: the left one is empty, and the right one contains 5. The empty circle on the left of the 5 branches into two circles: the left one contains 2, and the right one is empty. All numbers are in black circles. The circles containing 3, 2, and 1 are outlined in red. The circles containing 5 and 2 are outlined in blue. All other circles are white with black outlines. The plus signs are black. The text 'WEBDELMAESTRO.COM' is written in small letters across the top right of the frame.
