Match these stickers to the Wrocław dwarfs (Poland).

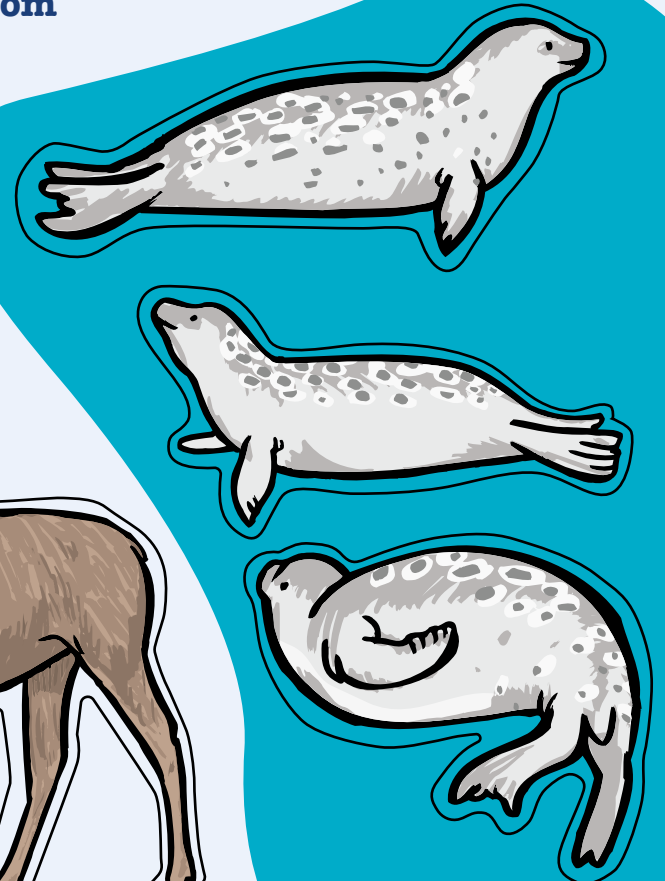

Stick these animals from Finland and Sweden.

ELK is the largest species in the deer family. It's a wild animal. This is a male (females don't have antlers).

REINDEER is a smaller kind of deer. In Lapland, they are domesticated by men and raised in herds. They also pull pulks (sledges) (like Santa Claus' flying reindeer).

SAIMAA RINGED SEALS live only in the lake of Saimaa, in Finland.

**The European Union is home to diverse cultures, traditions, languages, amazing landscapes and more than 500 million people. Discover each Member State in this interactive activity book. Draw, cut and paste, design and much more!**

**This book is aimed at children aged 7-11.**
